If at any time the student refuses or is unable to perform these physical activities when asked by the instructor, he/she will be dismissed from the program. Nursing Assistant duties are physically demanding and require routine performance of these activities.

Criminal Background Checks and Drug Screens

Students will be required to obtain a criminal background check and possible drug screen for the clinical site. This is a requirement for clinical participation, not a college requirement. Please see attached instruction sheet for steps in process. The student should be aware particular findings, such as, but not limited to drug abuse, child/elder abuse or theft may result in the facility refusing permission to allow you to enter the clinical site. The clinical facility reserves the right to decide if students with criminal histories will be permitted in the facility. **Students who are denied clinical rotation by the facility will not be eligible to continue in the program. CastleBranch is the only agency background check accepted for CNA program. The clinical site reviews the criminal background check. Each clinical site has the final determination if a student will be allowed at the site. Sites may vary in their requirements to participate in their facility. Please consult with the HR representative if you have questions.**

Note: Conviction of certain crimes may prevent students from gaining employment.
