CompTIA Cybersecurity Analyst
CCT 7000

This course prepares students to evaluate the weaknesses of traditional and wireless networks for the purpose of incident response, reconstruction, and investigative techniques. This course is intended for professionals looking to perform data analysis and interpret the results, use threat detection tools, and protect applications and systems within an organization. Skills covered include threat and vulnerability management, security architecture, and cyber-incident response. In addition, students will prepare for the CompTIA Cybersecurity Analyst (CySA+) exam. An intermediate Information Technology skill level is recommended.

Class will meet face-to-face one night a week in the Cybersecurity Lab on-campus and a portion of the coursework will be delivered online. Prepayment of tuition, and purchase of the course materials (approx. $125) are required. Registration fees do not include CompTIA CySA+ certification exam fees.

REGISTRATION CHECKLIST

STEP 1:   Complete NC Residency (RDS) and the RCC application on the college website.

STEP 2:   Schedule an appointment to talk with an admissions counselor to discuss the CompTIA Cybersecurity Analyst course requirements and registration process.

STEP 3:   After your appointment, you will be emailed the *CompTIA Cybersecurity Analyst Registration Form*. Complete the online form through the link and upload a copy of your government-issued photo ID (i.e. driver's license, passport, etc.).

STEP 4:   You will receive an email notification once you have been registered for the class. The email will contain your RCC login instructions. Follow the instructions to log into your new RCC accounts.

STEP 5:   Submit the $180 registration payment to the RCC Business Office.
