### NLN Nursing Pre-Admission Exam (PAX) (Delayed Reporting 4 hours)

The purpose of the Pre-Admission Examination-RN (PAX) is to facilitate admission decisions by providing nurse educators with a standardized instrument to use as a common basis for evaluating the academic ability of applicants to nursing programs. Each school determines the minimum score for their applicants. The NLN does not set a pass/fail, nor minimum score. Please contact your admissions department for more information.
