

Phlebotomy

In the United States, the only states that require special state certification for Phlebotomy are California, Louisiana, Nevada, and Washington.

If a phlebotomist is moving to California from another state, California's Department of Public Health requires applicants to provide documentation of both academic coursework and clinical training and/or work experience in order to be licensed in California. California's Department of Public Health only accepts on-the-job experience that includes blood collection solely for testing purposes. California also includes three levels of phlebotomy certification: Limited Phlebotomy Technician, Certified Phlebotomy Technician I, and Certified Phlebotomy Technician II. Academic requirements for California require a high school diploma or GED and official transcripts that show an applicant has earned credit for courses completed at an accredited university. Applicants must also have passed an approved phlebotomy national certification examination.

Louisiana requires several components to its phlebotomy certification application. These components include a notarized oath or affirmation, a third party authorization (authorization for Louisiana State Board of Medical Examiners to gather information about the applicant), a photograph taken within the last 6 months (passport quality), and a background check. Additional components include a birth certificate or valid visa, verification of other health care certifications and licenses, and an online education course and quiz.

Nevada recognizes phlebotomists as "lab assistants" and must complete lab certification training. In contrast to California work experience requirements, Nevada does permit work in a blood bank to count as clinical experience.

If moving to the state of Washington, phlebotomists require a bit more in order to receive licensure. To become a phlebotomist in Washington, applicants must have a high school diploma or GED, have received formal training at a post-secondary program at an accredited institution (or through an apprenticeship with a licensed healthcare practitioner) or through the military. The applicant must also complete a minimum of seven AIDS training hours and provide a list of all states in which one has applied for a phlebotomy credential (whether it was received or not). Applicants for licensure in Washington must also provide specific statements verifying sound physical health, mental health, no history of substance abuse, no history of felony convictions, and no history of disciplinary actions or loss of credentialing. Any statements made in the positive for any of these will require explanations.

Contact Name in State: Alabama Department of Public Health
<https://www.alabamapublichealth.gov/index.html>

Contact Phone Number: [1-800-252-1818](tel:1-800-252-1818)

Contact Email Address: <https://www.alabamapublichealth.gov/about/contact.html> **Contact Us Form**

To become a phlebotomist in Alabama, you must complete a phlebotomy training program. Students interested in pursuing this career can enroll in a two-year associate degree program or a short-term certificate program at a technical school or community college. Certificate programs, which usually are completed in less than a year, are the programs most chosen by aspiring phlebotomists.

Additional Information: Certification is not a state or legal requirement in Alabama, but most employers prefer to hire phlebotomists who have obtained certification.

Certification can be obtained through organizations such as the National Center for Competency Testing (NCCT), the American Medical Technologists (AMT), the American Society for Clinical Pathology (ASCP) and the National Phlebotomy Association (NPA).

Mailing Address: Alabama Department of Public Health
P.O. Box 303017
Montgomery, AL 36130-3017

Contact Name in State: Alaska Department of Health and Social Services
<http://www.dhss.alaska.gov/Pages/default.aspx>

Contact Phone Number: [\(907\) 334-2483](tel:(907)334-2483)

Contact Email Address: adam.crum@alaska.gov Adam Crum, Commissioner

Additional Information:

There is no state licensure requirements in Alaska for phlebotomists. Still, you may want to take a voluntary certification and from either National Phlebotomy Association (NPA) or American Society of Phlebotomy Technicians (APT). In Alaska, as well as some other states, you do not need to be certified to work in the field of phlebotomy. However, certification allows you to apply for higher paying jobs and will provide you with more job opportunities.

4500 Boniface Parkway
Anchorage, AK 99507-2107

Contact Name in State: Arizona Department of Health Services
<https://azdhs.gov/>

Contact Phone Number: [\(602\) 542-1025](tel:6025421025)

Contact Email Address: [N/A](#)

Additional Information: To become a phlebotomist in Arizona, one must first complete an accredited training program in phlebotomy. The National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) is the most used accrediting agency for phlebotomist, and it also meets certification requirements. Arizona is one of many states that does not require their phlebotomists be licensed. They are also not required to be certified.

Mailing Address: Arizona Department of Health Services
150 North 18th Avenue
Phoenix, Arizona 85007

Contact Name in State: Arkansas Dept. of Health

4300 Cherry Creek Drive South
Denver, CO 80246

Contact Name in State: Connecticut State Department of Health

<https://portal.ct.gov/DPH>

Contact Phone Number: [860-509-8000](tel:860-509-8000)

Contact Email Address: oplcdph@ct.gov

Additional Information:

To work as a phlebotomist in Connecticut, you generally have to complete a training program. While some students may complete two-year associate degree programs, these are not necessary to become a phlebotomist. Some programs may require the students become CPR-certified before entering the program while other programs include CPR training as part of the curriculum. Phlebotomists are not required to be licensed in Connecticut.

Contact Name in State: DC Health
<https://dchealth.dc.gov/>

Contact Phone Number: [\(202\) 442-5955](tel:(202)442-5955)

Contact Email Address: doh@dc.gov

Additional Information:

Certification is a requirement for a phlebotomist working in the District of Columbia. In the past, phlebotomists learned their vocation while on the job. Today, medical facilities want to hire a phlebotomist who has been trained and holds professional certification. By hiring a certified phlebotomist, a medical facility is taking the necessary steps to avoid lawsuits and other issues that may occur as a result of hiring an unskilled phlebotomist.

Mailing Address: DC Health
899 North Capitol Street, NE,
Washington, DC 20002

Contact Name in State: Florida Health Department
<http://www.floridahealth.gov/>

Contact Phone Number: [850-245-4444](tel:850-245-4444)

Contact Email Address: MedicalQualityAssurance@flhealth.gov

Additional Information: Since 2011, the state of Florida does not require certification or licensure for phlebotomists.

Mailing Address: Florida Health Department
4052 Bald Cypress Way,
Tallahassee, FL 32399

Contact Name in State: Georgia Department of Public Health
<https://dph.georgia.gov/>

Contact Phone Number: [\(404\) 657-2700](tel:(404)657-2700)

Contact Email Address: PHN@dph.ga.gov

Additional Information: CPTs (Certified Phlebotomy Technicians) need their certification to draw blood from patients. The Phlebotomy Technician Certification program is accredited by the National Commission of Certifying Agencies (NCAA). The National Healthcareer Association, Inc. issues CPT certifications. Your phlebotomy program will likely provide information about the entire certification process.

Mailing Address: Georgia Department of Public Health
2 Peachtree Street, NW
15th Floor
ATLANTA, GA 30303

Contact Name in State: Hawaii Department of Health
<https://health.hawaii.gov/>

Contact Phone Number: [\(808\) 692-7400](tel:(808)692-7400)

Contact Email Address: webmail@doh.hawaii.gov

Additional Information:

Becoming a phlebotomist in Hawaii requires completing a phlebotomy training program that's accredited by the American Society of Clinical Pathologists. Phlebotomy training programs in Hawaii do not have any prior education or prerequisite requirements. Although Hawaii does require that certain clinical laboratory personnel be licensed, they do not require licensure of phlebotomists. However, they do recommend certification.

Mailing Address: Hawaii Department of Health
1250 Punchbowl St,
Honolulu, HI 96813

Contact Name in State: Idaho Department of Health and Welfare
<https://healthandwelfare.idaho.gov/>

Contact Phone Number: [\(208\) 334-0612](tel:(208)334-0612)

Contact Email Address: Questions@dhw.idaho.gov

Additional Information: In Idaho, phlebotomists must complete specialized training in order to legally work in the field. Phlebotomy training courses are usually non-degree awarding and take less time to complete, which is advantageous for those who want to seek work in healthcare settings straight away.

Mailing Address: Idaho Department of Health and Welfare
707 N. Armstrong Pl.,
Boise, ID 83704

Contact Name in State: Illinois Department of Public Health
<http://dph.illinois.gov/>

Contact Phone Number: [217-782-4977](tel:217-782-4977)

Contact Email Address: DPH.MAILUS@illinois.gov

Additional Information: Phlebotomists are not required to be licensed or certified to work in Illinois. However, certification can be obtained voluntarily by meeting the certification requirements set by the agency.

Mailing Address: Illinois Department of Public Health
525-535 West Jefferson Street
Springfield, IL 62761
